

TWE SOLUTIONS

SERVICES BRIEF

TWE ADVISORY CISO

Expert Security Leadership Designed for Companies Like Yours

Businesses Like Yours Face Challenges In Security Leadership

Organizations of all sizes face mounting security threats, complex compliance requirements, and evolving technologies—yet many cannot afford or retain a full-time Chief Information Security Officer (CISO). Without this crucial leadership, organizations risk operational disruptions, compliance failures, and reputational damage from preventable breaches.

That's Why We Offer TWE Advisory CISO

TWE Solutions delivers strategic security expertise tailored to your business through our Advisory CISO service. Our seasoned professionals provide leadership in risk management, compliance readiness, and cybersecurity strategy. Unlike traditional consultants, TWE offers consistent support, ensures policy alignment with regulations like NIST CSF and HIPAA, and equips your team with ongoing security awareness training. All this is delivered with the flexibility and cost-efficiency midsized companies need.

The TWE Advantage

By partnering with TWE, organizations achieve enhanced security maturity, regulatory compliance, and peace of mind. Our Advisory CISO service empowers businesses to proactively address risks while focusing on growth, with scalable, expert-driven solutions that adapt to evolving threats.

Evaluates third-party risks to protect your organization

Monthly Reporting

Keeps stakeholders informed with clear, actionable insights

EXPERT SECURITY LEADERSHIP DESIGNED FOR COMPANIES LIKE YOURS

	TWE Solutions	Typical Competitor
Experience Security Leadership	TWE offers industry certified veteran CISOs with expertise in enterprise security and compliance frameworks	Competitors may rely on less experienced or generalist consultants
Tailored Strategies	Custom roadmaps aligned with your business goals and risk tolerance	Often limited to one-size-fits-all approaches that miss specific organizational needs
Proactive Risk Management	Regular assessments to identify vulnerabilities and implement fixes before incidents occur	Reactive approaches that leave gaps until an issue arises
Continuous Compliance Support	Maintains compliance with regulations like NIST CSF, HIPAA, and PCI DSS through ongoing updates	Infrequent reviews, leading to lapses in compliance readiness
Comprehensive Incident Response	Develops and tests detailed response plans, ensuring rapid containment and recovery	May only provide generic or template-based incident plans with limited real-world testing
Employee Empowerment	Delivers a customized security training plan, boosting your first line of defense	Generic training programs without actionable insights for employees
Consistent Team Support	No reliance on a single person—TWE provides a dedicated team for seamless, long-term service	High turnover or reliance on one resource, creating disruptions in support continuity
Scalable Service Delivery	Flexible support model grows with your business, adapting to new challenges without costly overhauls	Limited scalability, often requiring expensive service upgrades to meet growing needs
U.S.-based Teams	Onshore expertise ensures timely and effective communication during critical situations	Offshore teams may struggle with time zones and cultural alignment, delaying resolution
